Or copy and paste this web page to your browser. <http://suzzettsfabric.com/category/StarryNight.html>

No Snowflakes Tree

Approximately 23 by 30 inches

No Snowflakes Wreath

Approximately 23 by 29 inches

With Snowflakes Tree or Wreath

Approximately 23 by 42 inches

AKA Full Panel

With top or bottom only Snow flakes

Approximately 23 by 37 inches

There are several different options available for making a Christmas Wall-hanging using a Northcott Starry Night Christmas Tree or Christmas Wreath panel. The size of each panel is shown next to the panel.

For the panels without snowflake borders or with one snowflake border, you will need to purchase for the backing at least 7/8 yard of fabric. For the wall-hangings with both snowflake borders purchase about 1 1/3 yards. You can then use the leftover fabric for the binding if you want to use the same fabric for the back and the binding on the full panel.

You will need approximately 3/8 yard of a coordinating fabric for the binding on any of the wall-hangings.

Resize your panel by removing the desired snowflake borders or leave the snowflakes in place.

Cut your backing fabric **allowing at least 2 inches larger on each side of the resulting top panel.**

Layer your fabric in preparation for quilting your project with backing fabric face down on your working surface, batting fabric on top of the backing fabric.

Add the panel fabric right side up on top of the batting. Pen the 3 layers together then machine or hand quilt as desired.

Refer to the Northcott YouTube video found [HERE](#) or copy and paste this link into your browser <https://www.youtube.com/watch?v=bHrqiQwCbDs> to see how easy it is to add lights to your quilt. Add a little pocket to hold your battery pack for the lights.

Cut binding 2 1/2 inches wide. You will need at least four strips of fabric for the binding. Attach the binding. Add a hanging sleeve if desired to hang your finished wall-hanging.
